WEB DEVELOPER & TECHNICAL TEAM LEAD

● STATUS: ONLINE

// SUMMARY

8+ years building with PHP, Laravel and WordPress, and running the Linux infrastructure behind them. Tech lead at Harmony — responsible for several high-traffic platforms at once, from disk-full emergencies and database recovery to server migrations and performance tuning.

// DEPLOYMENT HISTORY (EXPERIENCE)

Technical Team Lead — Harmony

Oct 2023 — Present

- Leading technical delivery across Harmony's client portfolio — Laravel and WordPress platforms running on Linux server infrastructure
- Personally built most of the projects in Harmony's portfolio (harmony.agency/portfolio)
- Own database design, server administration, and infrastructure reliability across the stack

Senior Developer — Harmony

Oct 2021 — Oct 2023

- Built and maintained Laravel and WordPress platforms for multiple clients
- Managed databases — schema design, optimization, and recovery
- Administered Linux servers supporting production traffic

Web Technical Specialist – WordPress — FaraGostar

Jun 2020 — Oct 2021

- Developed and maintained company websites in the office-automation space
- Synced user data with Microsoft CRM via API and WordPress hooks

WordPress / PHP Developer — VADA House of Mobile

Dec 2018 — Jun 2020

- Built sites for the company's app ecosystem (farmooon.com, karmand.app, and others)
- Built a custom vehicle-violation lookup plugin using a third-party API

Web Designer — MahanWeb

Feb 2018 — Dec 2018

- Designed and developed sites with CodeIgniter, PHP and WordPress

ICT Specialist – Network Unit — Amin Police University

Sep 2016 — Jul 2017

- Network troubleshooting, ducting, cabling, switch and fiber-optic work

Webmaster — Decolife

Nov 2015 — Mar 2016

- Supported product listings on decolife.ir and launched photoderape.com
